

# How to Start Your Aventro Car

Starting your Aventro car is a simple process, but exact procedures may vary slightly depending on the model, fuel type, and technology (conventional, electric, or hybrid). Below is a general step-by-step guide for Aventro Petrol, Diesel, Hybrid, and Electric cars.

---

## For All Aventro Models

### 1. Ensure Safety First

- Sit in the driver's seat and fasten your seatbelt.
  - Ensure the gear lever is in 'P' (Park, for automatic) or 'N' (Neutral, for manual).
  - Press the brake pedal (and the clutch for manual transmission).
- 

## A. Petrol & Diesel Models

### With Standard Key Ignition

1. **Insert the Key:**
  - Insert the car key into the ignition slot (usually on the right of the steering column).
2. **Turn the Key:**
  - Turn the key clockwise to the "ON" position (dashboard lights turn on).
  - Continue turning to the "START" position. Release when the engine starts.

### With Push-Button Start

1. **Ensure Key Fob is Inside the Car:**
    - The key fob should be in your pocket or bag within the vehicle.
  2. **Press the Start/Stop Button:**
    - Press and hold the brake pedal.
    - Press the "Start/Stop" button. The engine will start.
- 

## B. Electric Models

1. **Key Fob Present**
  - Ensure the key fob is inside the vehicle.
2. **Press Brake Pedal**
  - Firmly press and hold the brake pedal.

3. **Press Start Button**

- Press the “Start/Stop” button. Indicator lights and systems will activate.

4. **Ready Indicator**

- Wait for the ‘READY’ signal/light on the dashboard. The car is now ready to drive silently.
- 

## C. Hybrid Models

1. **Key Fob Present**

- Make sure the key fob is with you, inside the car.

2. **Press Brake Pedal**

- Press and hold the brake pedal.

3. **Press Start Button**

- Press the “Start/Stop” button.
  - The car may start silently in EV mode or with a slight engine sound in engine mode. Watch for ‘READY’ signal on the dashboard.
- 

## Additional Tips

- For all models, ensure all warning lights turn off after starting.
  - Do not press the accelerator while starting.
  - For electric/hybrid, if ‘READY’ does not appear, try restarting.
- 

**If you’re unsure or the car doesn’t start, refer to your Aven-  
tro user manual or contact the nearest Aventure Service  
Center.**
