## Genuine Spare Parts – Details & Price (Industry Standard Estimates)

---

### 1. Engine Assembly

- **Description:** The core mechanical component that converts fuel into mechanical power for propulsion.
  - **Applicable Models:** All Petrol, Diesel, and Hybrid variants
  - **Industry Standard Price:** 1,20,000 – 2,50,000 (varies by engine capacity and technology)
  - **Warranty:** 2 years or 50,000 km (whichever earlier)
  - **Note:** For Electric variants, Engine Assembly is replaced by Battery Pack/Motor assembly.
- 

### 2. Battery Pack

- **Description:** High-capacity rechargeable battery powering Electric and Hybrid models.
  - **Applicable Models:** Electric & Hybrid variants
  - **Industry Standard Price:**
    - Electric: 2,00,000 – 4,50,000 (depending on kWh rating)
    - Hybrid: 60,000 – 1,50,000
  - **Warranty:** 8 years or 1,60,000 km (whichever earlier)
  - **Note:** Prices depend on size (kWh), chemistry, and import duties.
- 

### 3. Transmission

- **Description:** Transmits engine/motor power to wheels, manages speed and torque.
  - **Applicable Models:** All variants (specific tech for Automatic, Manual, or e-Drive)
  - **Industry Standard Price:**
    - Manual: 65,000 – 1,20,000
    - Automatic (AT/CVT/DCT): 1,10,000 – 2,00,000
  - **Warranty:** 2 years or 40,000 km (whichever earlier)
-

#### **4. Brake Pads**

- **Description:** Key component for vehicle stopping, includes front and rear sets.
  - **Applicable Models:** All, with some EVs using regenerative braking for longevity
  - **Industry Standard Price:**
    - Front Set: 3,000 – 6,000
    - Rear Set: 2,500 – 5,000
  - **Warranty:** 1 year or 20,000 km
- 

#### **5. Suspension System**

- **Description:** System of springs, dampers, and linkages for ride comfort and handling.
  - **Applicable Models:** All models and variants
  - **Industry Standard Price:** 18,000 – 45,000 (per axle, including shock absorbers & bushings)
  - **Warranty:** 1 year or 25,000 km
-
