

## Software & Updates

Velvera smartphones run on **VelveraOS**, a secure, AI-enhanced, and privacy-respecting operating system optimized for performance and longevity. Software support and feature availability vary by series to best match user needs — whether you're a power user, gamer, student, or first-time smartphone owner.

---

### Update Timeline

Velvera ensures long-term device viability through a clear and transparent software lifecycle policy.

Series	Major OS Updates	Security Patches	End of Official Support
<b>One Series</b>	4 Years	5 Years	December 2030
<b>Edge Series</b>	3 Years	4 Years	October 2029
<b>Nexus Series</b>	4 Years	5 Years	December 2030
<b>Core Series</b>	2 Years	3 Years	August 2028
<b>Start Series</b>	1 Year	2 Years	March 2027

#### Update Frequency:

- **OS Upgrades:** Annually in Q2 (e.g., VelveraOS 7 in Q2 2026)
- **Security Patches:** Monthly (1st Monday of each month)

- **Bug Fixes & App Updates:** Rolled out bi-weekly via Velvera System Updater
- 

### **Software Integrity & Privacy**

All updates are: - **Digitally Signed** and delivered over encrypted channels.

- **Privacy-Audited** and **Ad-Free**, in line with Velvera's no-tracking policy.
  - Rolled out in **phased batches**, with staged rollout status viewable in the "Updates" section of the device settings.
- 

### **Upgrade Recommendations**

- **For Power Users:** Stick with One or Nexus series to enjoy full feature continuity through OS 7, 8, and beyond.
- **For Budget Users:** Core and Start Series still get essential security updates and performance enhancements for peace of mind.
- **For Developers & Early Adopters:** Nexus series gets **Beta Access** to future VelveraOS versions through the **Velvera Labs Program**.
