

Environmental Commitment

At Velvera, sustainability is not an afterthought — it's part of our design philosophy. From ethical sourcing to green logistics, every step is optimized to minimize environmental impact without compromising performance or innovation.

Sustainability Initiatives

- **Carbon Neutral Packaging**

All Velvera packaging is made from **100% recycled paper**, printed with soy-based inks, and manufactured in **carbon-neutral facilities**.

- **** Plastic-Free Experience****

Zero plastic across packaging — including tapes, wraps, and trays. Instead, we use biodegradable fiber-based cushioning and compostable seals.

- **** Trade-In & Recycling Program****

Recycle your old Velvera or any brand's device responsibly through our **TakeBack+** program.

- Instant trade-in value at velvera.com/trade-in

- Certified e-waste recycling partners

- Earn up to 1,500 in green credits

- **Energy Efficiency**

All Velvera chargers and power adapters exceed **90% energy efficiency** standards and are designed to minimize phantom power drain.

- **Conflict-Free Materials**

All key components (tantalum, tin, tungsten, and gold) are sourced from **conflict-free and ethically audited** supply chains.

- **Eco-Friendly Accessories**

Accessories like phone cases and watch bands made from **bio-polymer**, **plant-based leather**, and **recycled ocean plastic**.

Green Certifications

Certification	Description
EPEAT Gold	Awarded to all Velvera tablets for meeting highest environmental criteria
Energy Star	Certified on all Velvera chargers, power banks, and audio devices

Certification	Description
RoHS Compliant	Restricts use of hazardous substances in manufacturing
ISO 14001	Environmental management systems certified across all production facilities
RE100 Member	Committed to sourcing 100% renewable electricity by 2027

Did You Know?

Every Velvera One unit ships with 30% less packaging volume than the previous generation — reducing shipping emissions by 18% per unit.

Future Goals (2025–2030)

- **Net Zero Manufacturing by 2028**
Fully transition to renewable energy in all manufacturing sites globally.
 - **Circular Design Commitment**
Launch modular smartphones and tablets with **user-replaceable parts** by 2026.
 - **Certified Carbon Offset Program**
Offer opt-in offsets for all online purchases, contributing to reforestation and clean energy projects.
